the world’s finest faces

Take a gander at this collection of more than 350 fonts to add spice and personality to your design projects. Imagine the possibilities of typographic delights you could create with such a diverse palette of type styles.

The fonts you see in this PDF are all available from Chank Co. Chank Fonts bring character to your designs by giving unique voice to the printed word. Used on their own or in conjunction with classic typefaces, Chank Fonts will surely add flavor, excitement and style to your design work.

Chank Fonts are crafted using the newest technologies to provide you, the font user, with highest quality fonts available today. We continuously strive for typographic excellence and we take pride in bringing you great fonts. The typefaces you see here are all available for both Macintosh and Windows computers, in convenient OpenType, TrueType or webfont formats.

This document is a convenient set of “line listings” intended to be a handy reference guide for knowing which fonts are available from Chank Co. These fonts on display at Chank.com and available from most reputable font distributors. Please contact us directly for licensing information for worksites, server use or embedding these fonts in apps, games and eBooks.

Chank Fonts can be obtained 24 hours a day directly from our fine distributors, including MyFonts.com, Fonts.com, Typekit, Fontspring and Font Bros. If you see a font in this book that's not available online, contact us directly via email fonts@chank.com. For more info, visit our website, chank.com.

Enjoy these fonts and use them often!

What do you like most about your 'za? Want to add some parmesan cheese?

I think the best thing about pizza is the sauce, it's all about the sauce & crust.

Let's get extra sauced tonight.

It’s only through the use of a typeface that a designer can learn the true nuances of a particular font. Since he first introduced the Venis fonts in January 2001, Chank has been using his classy text font Venis for newsletters, proposals, and virtually all correspondence. Through such exhaustive use, he realized the need for display versions to accompany the text weights. Thus the release of Venis Extra Bold and Venis Extra Bold Italic.

With the addition of Venis Extra Bold and Venis Extra Bold Italic, this font family has extreme versatility and can be used confidently for all your design needs. In addition to their practical function as complimentary display fonts, the Venis Extra Bolds are strong enough to withstand the typographic torture of multiple Photoshop effects.

Venis is Chank’s third text family (Bawdy & Yearling came first). It is clean, simple and elegant with nice contrast, but it is not the most academically correct font. Chank’s creative liberties give Venis some unique qualities in its characters, which you’ll especially notice in the signature lowercase y.

Typographic aficionado Hrant Papazian of themicrofoundry.com says, "Venis dances in the light." He admires Chank’s free thinking and the font’s free spirit. "In fact," Papazian says, "I feel Venis’ y to be a notable contribution to type design."

The Venis Family is optimized for print. Use these fonts in newsletters, proposals, brochures, magazines, books, and other text-heavy paper products. They will bring a pure elegance to your designs.
