It's only through the use of a typeface that a designer can learn the true nuances of a particular font. Since he first introduced the Venis fonts in January 2001, Chank has been using his classy text font Venis for newsletters, proposals, and virtually all correspondence. Through such exhaustive use, he realized the need for display versions to accompany the text weights. Thus the release of Venis Extra Bold and Venis Extra Bold Italic.

With the addition of Venis Extra Bold and Venis Extra Bold Italic, this font family has extreme versatility and can be used confidently for all your design needs. In addition to their practical function as complimentary display fonts, the Venis Extra Bolds are strong enough to withstand the typographic torture of multiple Photoshop effects.

Venis is Chank's third text family (Bawdy & Yearling came first). It is clean, simple and elegant with nice contrast, but it is not the most academically correct font. Chank's creative liberties give Venis some unique qualities in its characters, which you'll especially notice in the signature lowercase y.

Typographic aficionado Hrant Papazian of themicrofoundry.com says, "Venis dances in the light." He admires Chank's free thinking and the font's free spirit. "In fact," Papazian says, "I feel Venis' y to be a notable contribution to type design."

The Venis Family is optimized for print. Use these fonts in newsletters, proposals, brochures, magazines, books, and other text-heavy paper products. They will bring a pure elegance to your designs.

VENIS EXTRABOLD

TYPOGRAPHIC AFFICIONADO HRANT PAPAZIAN OF THEMICROFOUNDRY.COM SAYS, "VENIS DANCES IN THE LIGHT." HE ADMIRES CHANK'S FREE THINKING AND THE FONT'S FREE SPIRIT. "IN FACT," PAPAZIAN SAYS, "I FEEL VENIS' Y TO BE A NOTABLE CONTRIBUTION TO TYPE DESIGN." (9 PT.)

VENIS EXTRABOLD ITALIC

The Venis Family is optimized for print. Use these fonts in newsletters, proposals, brochures, magazines, books, and other text-heavy paper products. They will bring a pure elegance to your designs. (9 pt.)

VENIS ITALIC

The creation of new idiosyncratic characters helps differentiate different weights of Venis as the style shifts. Between the regular and the italic the changes we see: a new semi-cursive "E", more slanted "M", a descending "f", more rounded "a" and "e", a semi-cursive "k" and a new, quirkier "y" that makes me think of a stingray.
